Monthly List *of* Russian Accessions

Vol. 9, No. 4

June 1956

THE LIBRARY OF CONGRESS
WASHINGTON : 1956

INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. However, publications in the languages of the U. S. S. R. issued in countries of Eastern Europe are not included, since they are covered by the *East European Accessions List*.

The MONTHLY LIST consists of three parts. Part A lists monographic literature, but no accessions published earlier than 1915 are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals with their tables of contents translated into English. However, those issued earlier than 1917 are not included.

Part C is a subject guide to both the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

| | | | | | |
|----|----------|----|--------|---|-----------|
| Ja | January | My | May | S | September |
| F | February | Je | June | O | October |
| Mr | March | Jl | July | N | November |
| Ap | April | Ag | August | D | December |

Sample title: *Edectio action of the brain in glaucoma.* L. S. Levina, G. M. Neishtadt. Vestnik, 30 no. 3, 1951, p. 51.

Explanation: An article with title given above in English translation, written by L. S. Levina and G. M. Neishtadt, will be found in the September-October 1951 issue of *Vestnik oftalmologii*, vol. 30, no. 3, pages 8-12.

A list of periodicals included in the current issue, with abbreviations used, is given at the beginning of Part C in each issue of the LIST. The number and letter in parentheses following each periodical title indicate the class and subclass in which it is to be found in Part B. Cumulative lists of periodicals included in the current volume appear in numbers 8 and 12 of that volume. These lists are arranged by subject; the symbols of American libraries other than the Library of Congress, known to have current files of each periodical, follow each title.

Except in Part C, the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols * representing other libraries indicate when items are available in those libraries. Curves () around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

A cumulative author, subject, and periodical locati MONTHLY LIST is available as a separate publication index to the monographs, and a periodical location index appendices to the first two issues of the following volume.

Orders for microfilm or photostat copies of the list Library of Congress may be placed with the Photoduplication 25, D. C.

1942年12月22日，在延安召开的整风运动总结大会，毛泽东在会上的讲话，是整风运动的重要文献。他在讲话中，总结了整风运动的经验，提出了“惩前毖后，治病救人”的方针，要求全党同志“知无不言，言无不尽”，“言者无罪，闻者足戒”，“有言者无罪，无言者也不给以罪名”。这一方针，成为整风运动的重要原则，对后来的党内斗争产生了深远影响。

ELECTRIC POWER PRODUCTION see subdivision under United States

ELECTRIC RAILWAY MOTORS

Single-phase 50 c/s commutator motor for traction purposes. *A. N. Ioffe*, *Elektricheskoye stroitel'stvo*, no. 12:10-12 D '55.

ELECTRIC REACTORS

Regulated asynchronous electric drive with saturable reactors and premagnetization of the motor. *M. O. Chilikin*, *M. M. Sokolov*, *V. I. Kibichev*, *Elektricheskoye stroitel'stvo*, no. 12:10-12 D '55.

ELECTRIC RELAYS

Dmitriyev, V. N. [Experimental and theoretical research on a jet-valve type of relay] *Eksploimatsionno i teoreticheskoye issledovanie pnevmaticheskogo rel'e tipa "soplo-zaslonka"*. Moskva, 1955. 8 p.

Protective relays without nonlinear elements. *V. L. Pribrikant*, *Elektricheskoye stroitel'stvo*, no. 12:10-12 D '55.

Transformer-controlled, differential, and distance relays. *A. D. Drosdov*, *Elektricheskoye stroitel'stvo*, no. 12:10-12 D '55.

ELECTRIC RELAYS—MODELS

Electronic model for investigating the movements of relay systems. A. A. Malinin. *Avtom. i telemekh.* 16 no. 6: 542-547 N-D '55.

ELECTRIC RELAYS—STUDY AND TEACHING

Teaching the topic. Electromagnetic relays. L. A. Gorev. *Fiz. v shkole* 10 no. 1: 61-64 Ja-Fe '55.

ELECTRIC RESISTANCE

Separate measurement of active and idle components of complex resistances. K. B. Karandeev, L. A. Mizluk, H. A. Shlamberger. *Dop. AN URSR* no. 5: 458-461 '55.

ELECTRIC RESONATORS

Impulse spark excitation of oscillations in the microwave band. I. V. Ivanov. *Radiotekhnika* 10 no. 12: 3-10 D '55.

ELECTRIC SPARK

Effect of electric spark hardening on wear resistance and fatigue strength. G. P. Ivanov, V. P. Savukov. *Metall. obr. met.* no. 6: 52-56 D '55.

Effect of tempering on the hardness of electric spark-hardened surface layers. G. P. Ivanov and others. *Metall. obr. met.* no. 4: 48-51 O '55.

ELECTRIC SUBSTATIONS

Problems in planning district substations with three voltages. E. A. Bugrinov. *Elektrichestvo* no. 1: 83-84 Ja '56.

ELECTRIC SWITCHGEAR

Disconnecting switch for 400 kv on transmission lines between Kuybyshev and Moscow. I. S. Aronovich. *Elektrichestvo* no. 1: 36-41 Ja '56.

Survey of designs of disconnecting switches for 380-400 kv. I. S. Aronovich, V. V. Gurvich. *Elektrichestvo* no. 1: 60-64 Ja '56.

Monthly List *of* Russian Accessions

Vol. 9, No. 4

THE LIBRARY OF
WASHINGTON

INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. However, publications in the languages of the U. S. S. R. issued in countries of Eastern Europe are not included, since they are covered by the *East European Accessions List*.

The MONTHLY LIST consists of three parts. Part A lists monographic literature, but no accessions published earlier than 1945 are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals with their tables of contents translated into English. However, accessions printed earlier than 1947 are not included.

Part C is a subject guide to both the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

| | | | | | |
|----|----------|----|--------|---|-----------|
| Ja | January | My | May | S | September |
| F | February | Je | June | O | October |
| Mr | March | Jl | July | N | November |
| Ap | April | Ag | August | D | December |

Sample title: Electric action of the brain in glaucoma. L.S.Levina, G.M.Neishtadt. Vest.oft. 30 no.5: 8-12 S-O '51.

Explanation: An article with title given above in English translation, written by L. S. Levina and G. M. Neishtadt, will be found in the September-October 1951 issue of *Vestnik oftalmologii*, vol. 30, no. 5, pages 8-12.

A list of periodicals included in the current issue, with abbreviations used, is given at the beginning of Part C in each issue of the LIST. The number and letter in parentheses following each periodical title indicate the class and subclass in which it is to be found in Part B. Cumulative lists of periodicals included in the current volume appear in numbers 6 and 12 of that volume. These lists are arranged by subject; the symbols of American libraries other than the Library of Congress, known to have current files of such periodicals, follow each title.

Except in Part C, the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols * representing other libraries indicate when items are available in those libraries. Curves () around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

A cumulative author, subject, and periodical location index to the first three volumes of the MONTHLY LIST is available as a separate publication. Beginning with Volume 5, an author index to the monographs, and a periodical location index for the entire volume are furnished as appendices to the first two issues of the following volume.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, \$9.00 a year domestic, \$11.00 a year foreign. Price of Cumulative Index to Volumes 1-3, \$1.50.

- Correlation factors in measuring the resistance of earth-ing devices. M. R. Nalfeld, Energetik 4 no. 1:39-40 Ja '55.

ELECTRIC MOTORS

- Electric motors. V. Bogatkov, L. Gal'pershlein, P. Khlebnikov Znan. sila 30 no. 12:insert 1-3 D '55.

ELECTRIC MOTORS—DESIGN AND CONSTRUCTION

- Parameter calculations in a three-stage electric motor control system operated by generator current regulation (taking into account the time constant of the exciter and the amplifier). N. P. Kunitskii, Dokl. AN SSSR 105 no. 6:1244-1247 D '55.

ELECTRIC MOTORS, INDUCTION

- "DAQ-1" electric motor for tape recorders. A. Langen, M. Onatsevich, Radio no. 1:43-44 Ja '56.

- Protection of mine induction motors from single phase operation. I. M. Mesler Ugol' 31 no. 1,28 Ja '56.

- Starting short circuited induction drive motors by changing the connections of parallel stator windings. V. V. Klimenko, Ugol' 31 no. 1:26-27 Ja '56.

- "UEZ-1" pickup and the "EDG-1" electric motor A. Shenfeld, Radio no. 1:20-22 Ja '56.

ELECTRIC POTENTIAL see Potential, Theory of

ELECTRIC POWER

- Estimation of the controllability of energy consumption by industrial users in a power system. Sh. Ch. Chokin, Izv. AN Kazakh SSR Ser. energ. no. 6:3-18 '54.
